

# Downloading and Accessing the ChronoGolf Mobile App

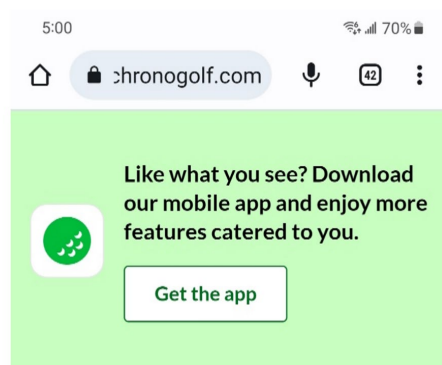

The following will walk you through the process to download the ChronoGolf Mobile application and access it. Once the application is installed on your mobile device, your user address and password will be the same as it is for the website that you setup when you activated the account in the Activation step. If you don't remember your password you will be able to request the password to be reset from either the website or the mobile application once installed. If you have previously used the ChronoGolf Mobile App for other clubs, you do not need to do anything as your Heritage Harbour membership will automatically be linked to your existing account and available via the app.

Here are the steps to download and access the mobile app on your mobile device

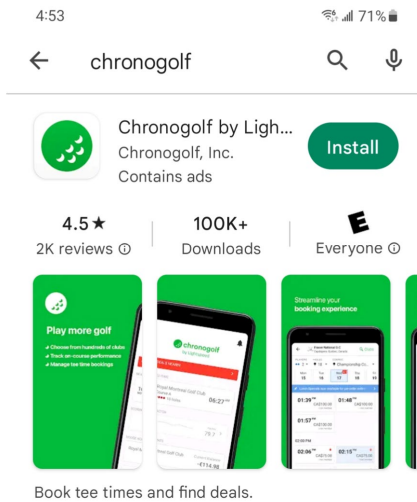

1. Either Scan the QR Code below or Go to the App/Play Store on your phone and search for the ChronoGolf App by typing in Chronogolf.

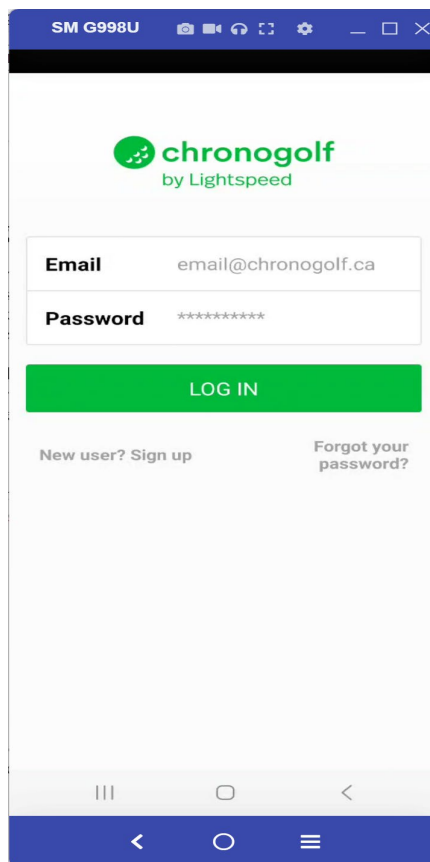

2. If you scanned the barcode click on the “Get the App” button that is displayed on your screen as follows

3. This should then display the Chronogolf app with the option to install it as follows:

4. Click Install and once the application is installed click on the Open to display the following login screen

5. From this screen you will use the same email address and password that you activated in the website. If you have forgotten your password you can use the "Forgot Your Password" and it will send you an email to allow you to reset it.
